

Central Michigan District Health Department has partnered with Central Michigan Recovery and Education Network (CMREN) to implement free Narcan for the community at our Reed City location.

CMREN is grassroots, network coalition, built on a foundation of collaboration and community managed by Ferris State University. Their primary role is to be a community connector to enhance awareness, education, and collaboration of substance use disorders.

CMDHD is proud to be an active supporter of this coalition.

Community members can stop and get Narcan for free 24/7 outside of the Osceola branch office located at 22054 Professional Drive, Reed City.

For more information about CMREN visit, [www.cmren.org](http://www.cmren.org). Contact Exchange Central at (989) 259-4549 for more syringe service supplies and resources. To learn more about Exchange Central, CMDHD's safe syringe program, "like" us on Facebook or visit [www.cmdhd.org/exchange-central](http://www.cmdhd.org/exchange-central).

What is Narcan (Naloxone)? Narcan is an opioid antagonist that blocks the opioid receptors in the brain to prevent a fatal overdose.

The Central Michigan District Health Department in partnership with the Central Michigan Recovery and Education Network to make Narcan available for free, 24/7 at the health department in Reed City.

To learn more about Naloxone visit, <https://www.cdc.gov/drugoverdose/featured-topics/naloxone.html>.

Contact Exchange Central for more resources and supplies for safe injection supplies (989) 256-4549!
